

RECORDS GO ON THE ALLEYS

Peerless Candle Pin Men Make New Single String Mark

AGAINST RELIANCE TEAM

Team Total Record Was Twice Raised, First by Peerless Men and Next by the Reliance—The Figure Is Now 1335.

The Reliance and Peerless bowling teams played a "double header" last evening at Alexander's, the Peerless team taking two strings of the first game, and the Reliance five capturing that honor in the second string. The Peerless team broke the team single record, raising it to 476. The team total record was raised twice. In the first game the Peerless bowlers brought it up from 1314 up to 1332, and in the next game the Reliance five brought it up to 1335. Wyllie had high single of 107 and Nelson had high three string total of 293.

The score:

RELIANCE.			
Trenoweth	88	83	93-264
Smith	92	94	92-278
Nelson	65	87	99-251
Devey	86	87	88-261

GRAND JURY CALLS G. B. COX.

Republican Ex-"Boss" of Cincinnati Is Summoned in Bank Inquiry.

Cincinnati, March 22.—George B. Cox, who announced his retirement from the Republican leadership in Hamilton county at the close of the last campaign, was one of the bank presidents summoned to appear before the grand jury yesterday to testify concerning the payment to county treasurers of interests or "gratuities," for the deposit of public monies.

The other bank officials summoned included the heads of all banks in which county funds have been deposited during the last few years.

SMOKING CAR FOR WOMEN.

Car for Fair Sex Tobacco Lovers in Operation in England.

London, March 22.—The first smoking car ever reserved for women in Great Britain left a big London terminus yesterday for Liverpool. The windows bore a label reading "Ladies Smoking." The innovation attests the spread of smoking among Englishwomen during recent years.

THREATEN TO ATTACK.

Rival Miners at Lens, France, on Verge of a Battle.

Lens, France, March 22.—A thousand more troops, including a large force of cavalry, are being assembled here, owing to the menacing spread of the miners' strike. The strikers are divided into two camps, the extremes and the moderates, and they threaten to attack each other.

Three Dead in Cave-in.

Hammond, N. J., March 22.—Antonio Mard, Mario Shani, and Giuseppe Costa, Italians, are dead at Folsom, on the Cene May division of the Atlantic City railroad, as the result of the caving in of a gravel bank.

KILLS CATARRHAL GERMS.

Breathes Hyomei a Few Times Daily and Be Cured—Goes Right to the Spot.

In treating catarrhal troubles, the first thing necessary is to kill all catarrhal germs that may be present in the nose, throat and lungs, thus freeing the system from the poison that they produce. Stomach dosing cannot kill these germs. A direct local treatment is absolutely necessary, and for this purpose nothing else equals Hyomei.

Its base is the famous eucalyptus oil. This is combined with other healing, aromatic gums and balsams, making a germ-killing, health-giving treatment for catarrh, entirely unlike anything else known. When using Hyomei the air you breathe is like that of the mountains, high above sea level, where the pine forests fill the air with fragrant and healing balsams that give health and strength to those suffering from diseases of the respiratory organs.

Breathed through the neat pocket inhaler that comes with every outfit Hyomei reaches every tissue of nose, throat and lungs giving immediate relief and effecting a permanent cure in the worst cases of catarrh.

The complete outfit, consisting of an inhaler, medicine dropper and one bottle of Hyomei, costs only \$1. Extra bottles can be obtained for 50 cents. Ricketts & Wells give a guarantee with every Hyomei outfit that the treatment will cost nothing unless it cures.

All Humors

Pimples, boils, eruptions, eczema or salt rheum, scrofula, are radically and permanently cured by

Hood's Sarsaparilla
Liquid or tablets, 50 Doses One Dollar.

1905 "BLACKEST YEAR."

Prof. MacDonald Also Attacks the Railroad Rate Bill.

Providence, March 22.—Citing the railroad rate legislation now before congress as an evidence of a tendency toward socialism, Prof. William MacDonald, who holds the chair of American history at Brown University, declared in an address here Tuesday night that a remarkable drift in the direction of socialism had marked the last year, and that the year 1905 was "the blackest year in the social and political history of the United States."

Prof. MacDonald's address was delivered before the Men's Club of the Christian Street Baptist Church. After giving a critical description of the leading political parties, he said:

"I believe that the socialist trend now increasing, perhaps more rapidly than any of us are aware, will continue to dominate American politics from the present time until the questions which have given rise to it are answered. We see the growing tendency in this direction exemplified in the halls of congress, where a bill proposing to give an official commission power to fix transportation rates on our railroads and to control corporations which are the creatures of state and not of federal law, is splitting party ranks asunder."

SWEETHEARTS MAY WAIT AT TREMONT MILLS GATE

The Three Months' Strike Against the Anti-Beaux Order Was Won by the Factory Girls.

New York, March 22.—The strike in the Tremont silk mills, which had lasted for three months, was declared off Tuesday, and hereafter that factory will be an "open shop" for Cupid.

The 200 young women employed there are crying victory, for in the future their sweethearts may wait for them at the gate—even inside the yard. It was not so before the strike, and that was one reason why the girls put on their hats and walked out.

The trouble began just before the holidays. The main grievance was that the manager issued an order saying that the factory was strictly a place for work, and that no beaux should wait around the gate or inside the building.

The girls made a protest, but Julius Jasper, the manager, was firm, and the strike then followed. Many of the girls returned to their work in a few days, but forty of them stuck it out.

POINT TO FRAUD.

Acts of New York Shippers to Be Investigated Friday.

Washington, D. C., March 22.—The interstate commerce commission yesterday gave out for publication the following notice:

"Upon reports to the commission that many shippers in and about the city of New York have been persistently under-billing and misrepresenting freight shipped by railroad from that city and other points in eastern territory, the commission has ordered an investigation and set the matter down for hearing at United States court rooms, New York city, on Friday, March 23, at 10:30 a. m."

It is expected that some highly interesting developments will take place, indicating frauds on the part of the shippers which amount to forced rebates from published tariff rates.

The members of the commission were loath to give any of the details, which led to the decision to conduct the investigation, but the information was imparted that beyond question the under-billing was intentional, and that the shippers were deliberately misclassified in order to secure the low freight rates.

No one at the offices of the commission was willing to admit that the railroads were a party to the alleged frauds. Many witnesses have been subpoenaed to be present at the hearing.

SUNDAY SCHOOL HYMNS

TRIVIAL AND DANGEROUS

A Chicago Pastor Says That the Doggerel and Other Trash Should Be Barred as Evangelistic Hymns Unit.

Chicago, Ill., March 22.—That the hymns commonly used in Protestant Sunday schools are trivial, grotesque and frequently dangerous, is the opinion of the Rev. William P. Merrill, pastor of the Sixth Presbyterian church, expressed Tuesday in an address at the Presbyterian Sunday school institute.

"Songs concerned with the sorrow and pain of this life, and the longing for the heavenly home, and the like," he said, "are dangerous and grotesque in a Sunday school; if indeed, they have a place anywhere. Doggerel and other trash should be ruled out of the Sunday school and ragtime should be strictly barred."

"Evangelistic hymns are absolutely unfit for the use of children in a Sunday school. We need solely to arrange our Sunday school music in accordance with the Savior's warning against 'causing the little ones to stumble.'"

W. H. Jahne's Election.

Pleasantville, March 22.—W. H. Jahne, the new president of this village, was busy yesterday receiving the congratulations of his many friends. Mr. Jahne, who was elected Tuesday, receiving all the votes but three, is one of the most popular men in Westchester county. He has served the village before in many capacities, his administration of the fire department, which he has brought to a high state of efficiency, having gained him many friends. Mr. Jahne intends to make many improvements here during his tenure of office, and will see that the \$70,000 voted for new roads and water supply is wisely spent.

Missing Steamers Safe.

Pieton, N. S., March 22.—Anxiety for the two government steamers Stanley and Minto, which were overdue, was relieved by the arrival here yesterday of the steamer Minto, and the sighting of the Stanley off this port.

HAMILTON RAPS INVESTIGATORS

Accepts Challenge of Committee Probing N. Y. Life

AGREES TO FACE THEM

Charges Them With Ignoring Certain Facts of Record in Their Possession and Seeking Halo of Newspaper Notoriety.

New York, March 22.—"Judge" Andrew Hamilton, the insurance legislative agent, yesterday made a caustic reply to the invitation of the Fowler committee, investigating the New York Life, to appear before the committee and give testimony. The Fowler committee directed that suit should be brought against "Judge" Hamilton at the same time the invitation was made.

In his formal reply, which was sent to Clarence H. Mackay, acting chairman of the Fowler committee, yesterday, "Judge" Hamilton ignores the invitation of the committee to appear and give testimony and declares he will meet the issues in court, "where there will be no vanity to be tickled and the scales will be held on an even balance."

"Judge" Hamilton's letter to the committee is as follows:

"Gentlemen: I am replying to the only communication received by me from your body since my return. It is doubtless quite evident that by this time you should be yourselves satisfied that the statements contained in my report of February 7, 1906, in regard to your examination of my accounts are seriously wrong and that when you rushed into print in order that you might wear a newspaper halo, you had not, as your report incorrectly stated, obtained all the information about this subject that is accessible."

"Your published interviews, which I take to be correct, because I know the facts so covered, betray a startling loss of memory during your deliberations upon the subject of weekly audit for years of my accounts by some members of your committee and from time to time by other members of the Board of Trustees. Documents in the company's office files (if they have not been suppressed), official actions spread upon the records of your proceedings and correspondence to which you must certainly have access have been deliberately ignored by you to give to the Paris policy fee account and to the refunded New York premium tax collections a false color upon which to base your unwarranted accusation."

"Notwithstanding this I was prepared to accept the suggestion contained in your letter. Will you walk into my parlor, says the spider to the fly: when you practically retreated from your position in choosing to proceed by the commencement of a civil action against me. I can appreciate that the events of the past week, so far as I have participated in them, are not, perhaps, calculated to put you in a judicial state of mind."

"I will, therefore, accept your latest challenge and meet you in a tribunal where there will be no vanity to be tickled, and the scales will be held on an even balance."

"Yours truly,"
"ANDREW HAMILTON."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is not a dangerous condition of the mucous surfaces.

We will give one hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Get catalogue of five models. Demonstrating Cars will arrive about April 1.

J. J. WILLIAMS & SON, - Montpelier, Vt.

INTERESTING FACTS

Remarks by an Observer.

"It seems strange to me," remarked a prominent physician, the other day, "why so many people make light of one of the most dangerous diseases—grip. Scores of people whom I know seem to regard this deadly mimic as a joke or call it fashionable."

"Possibly there is no disease that is as far reaching in its effects as this same 'fashionable' grip. Fashionable indeed! When I stop to think of the appalling results of grip that have come under my observation, it makes me shudder. Would you consider it 'fashionable' to have a weak heart, affected lungs or impaired eyesight? Would it be a joke to spend the remainder of your days in an insane asylum? These are not mere fancies; they are pictures drawn from life, showing the awful results from grip. Of course all persons suffering from an attack of grip are not left with these afflictions, but I have yet to discover a person who has had this disease who has not been left with some portion of his system weakened. It is this weak spot—that is susceptible to every unhealthy influence that comes along. The best way to prevent grip is to keep the system in such good condition that it will throw off any tendency toward this prevalent disease."

"The best way to fortify yourself against grip is to take Magee's (Malt) Emulsion. It gives you the strength and vitality necessary to stand severe weather, and can always be depended upon. It is a nutrient of the highest value, and after a period of low vitality it puts hope into the patient and makes life worth living. It replaces the wasted tissues and builds all gains."

Magee's (Malt) Emulsion is a pure cod liver oil, combined with astringent, diastatic, non-alcoholic malt and hypophosphites of lime and soda. Cod liver oil has long been recognized by the medical profession as the best remedy for bronchial and pulmonary affections and in Magee's you get the pure article in combination with the malt and hypophosphites. Diastatic malt extract, such as is used in Magee's (Malt) Emulsion, is non-alcoholic and is regarded by physicians as the highest form of food. You thus get a food, a medicine and a tonic combined. Magee's (Malt) Emulsion is the greatest flesh builder and invigorator known. It strengthens the weak and imparts vitality to the most delicate invalid. Don't delay—it's dangerous; start taking it today.

Beware of the wine preparations. They are only artificial stimulants and the reaction which follows their use leaves you in a worse condition than before. There is only one Magee's (Malt) Emulsion and it contains no whiskey—no wine—just food.

It may be procured of E. A. Drown, Druggist, 48 North Main street, Barre.

key fee account and to the refunded New York premium tax collections a false color upon which to base your unwarranted accusation."

"Notwithstanding this I was prepared to accept the suggestion contained in your letter. Morristown License Commissioners.

Morristown, March 22.—The assistant judges of Lamolite county court, A. N. Boynton of Wolcott and H. C. Parker of Elmore, have announced their appointments for license commissioners for Morristown as follows: C. E. Smith, A. G. Small and W. G. Bassett. Mr. Smith served as a member of the board last year.

SHORTS TO QUIT SOON.

Stevens Will Succeed Him—Cromwell to Blame for Causing Trouble.

Washington, March 22.—In spite of all official denials, it is said in quarters close to the canal commission that Chairman Shonts will retire shortly and that Chief Engineer Stevens will succeed him. Shonts will retire because of his connection with the Clover Leaf, because of inability to get along in harmony with Secretary Taft, because of his health, and because of criticism arising from the Markel contract, his failure to remain on the canal zone, and other matters.

Opponents of William Nelson Cromwell charge that he is a trouble maker and responsible in part for Shonts' difficulties. The reports that Joseph B. Bishop will not be confirmed as a member of the commission are revived. In case Congress decides to cut the commission down to three, there will be no place left for Bishop as commissioner. But he will undoubtedly be allowed to retain his place as secretary.

FOR BOSTON'S NEEDS.

Senate Sub-Committee Coming to View Old Custom House.

Washington, D. C., March 22.—The Senate committee on public buildings and grounds have determined to look into the question of a new custom house and appraisers' stores at Boston.

At a meeting of the committee yesterday, Senators Heyburn of Idaho, Dryden of New Jersey and Lattimer of South Carolina were appointed a sub-committee to investigate the needs of the customs service at Boston as regards new buildings, and to report upon the matter later in the session of Congress. The sub-committee has not yet made any definite plan for their future action, but it is probable that soon after they take up for consideration Senator Lodge's bill providing for a new custom house and appraisers' stores they will visit Boston for the purpose of studying conditions in the custom house and the proposition for new and adequate quarters.

Statehood Debate Today.

Washington, March 22.—The statehood bill, which was to have been considered yesterday, was taken up by the House immediately after it convened today. As soon as the death of Representative Patterson was made known to Speaker Cannon yesterday, he decided the House should adjourn without taking up any business.

RATES IN THE SENATE

Proposed Amendments Bring Out Spirited Debate

AGAINST CAMPAIGN FUNDS

Would Keep the Courts Open for Real Appeals—Also Would Guard Against Many Frivolous Complaints.

Washington, D. C., March 22.—A spirited debate on the legal questions involved in the railroad rate bill sprang up in the Senate yesterday afternoon when Senator Bailey offered his amendments to the Hepburn measure.

A pathetic touch was given to the debate by the fact that as Senator Bailey was speaking news of the death of his father was received. He was kept in ignorance of the fact until after he had concluded when he was called into the cloak room, and told by Senator Foster. He immediately left for his rooms in the Senate Annex, and Mr. Tillman announced that Mr. Bailey could not continue the debate.

Mr. Culberson and introduced an amendment to the bill prohibiting railroad campaigns from subscribing to political campaign funds and imposing the same punishment for its violation.

Mr. Clark of Wyoming withdrew his conference report on the bill prohibiting the premature divulgence of government information, on account of the objection to the new matter in it. He said a joint resolution covering senators and members of the House of Representatives would soon be presented. The conference inserted members of Congress in the list of officials that were prohibited from divulging secret information.

Mr. Bailey then took the floor to present his amendments. These provide that the decisions of the interstate commerce commission in fixing a rate that shall afford just compensation to the railroad may be subject to a full court review, and that pending the determination of this question by the court the rate fixed by the commission shall not be suspended by any judicial interdictory decree or injunction.

The discussion precipitated by the Texas senator took a wide range and disclosed a divergence of views on the part of some of the Democratic senators who took part in it. Senator Doliver, the chief sponsor of the Hepburn bill, also took exceptions to some of Mr. Bailey's views. Senator Bailey declared that if, as the friends of the pending bill insisted, the measure already contained an understood provision for a court review there could be no objection to expressing that provision in terms.

Mr. Bailey referred especially to Mr. Doliver's declaration that the Bailey provision would deny a just compensation and declared that he had copied the language of the constitution in his proposed amendment. Mr. Bailey added that the amendment did not affect the Hepburn bill on the question of discrimination. He said that he had prepared two amendments, both of them tentative.

Senator Tillman, in his blunt fashion, speaking of the question of deciding what was just compensation to a railroad, raised a laugh when he said that railroad officials had been known to lie when questioned about the value of the property of their companies. He cited an instance where a railroad had declared some of its property to be worth \$5,000,000 when a suit was filed against it for damages, but at the same time swore to the tax collector that it was worth only \$1,500,000.

SHONTS TO QUIT SOON.

Stevens Will Succeed Him—Cromwell to Blame for Causing Trouble.

Washington, March 22.—In spite of all official denials, it is said in quarters close to the canal commission that Chairman Shonts will retire shortly and that Chief Engineer Stevens will succeed him.
